PROFILE

Motivated Computer Science diploma holder and full-stack developer with 2+ years of hands-on experience building scalable web applications using Laravel, MERN stack, Java, Python, Selenium, and AWS. Proven track record in end-to-end development, automation, testing, and deployment for client projects in education and finance sectors. Strong problem-solving skills demonstrated through live projects, automated workflows, and leadership in technical workshops and campus initiatives. Seeking Software Developer role to contribute to innovative, high-performance software solutions.

SKILLS

Programming Languages: Laravel (PHP), Python, Java, JavaScript (ES6), Vanilla JavaScript

Frontend: HTML, CSS, Tailwind, Bootstrap, flowbite, React, Angular

Backend & Frameworks: MERN Stack (MongoDB, Express.js, React.js, Node.js), Spring Boot, Laravel, RESTful APIs

Testing & Automation: Selenium, n8n (workflow automation)

Cloud & DevOps: AWS (EC2, S3, Lambda, Route53, RDP), cPanel, Git, GitHub

Databases: MySQL, MongoDB

Tools: VS Code, Postman, Excel, Notion, Eclipse

Other: Full-Stack Development, Web Application Development, UI/UX, Agile Methodologies

PROJECTS

Tradeverse Dashboard WebApp, *Full-stack web platform for managing multiple demat accounts with features for order placement, market depth viewing, real-time data, and trade automation in a secure unified portal.*

- Delivered responsive dashboard supporting real-time market data and automation; reduced manual trade execution time by ~60%; ensured 80%+ uptime via AWS infrastructure; integrated secure APIs for low-latency updates.

GSL Education CRM, *Custom CRM web application for an education consultancy to manage team workflows, student profiles, and intelligent college recommendations based on IELTS scores, budget, academics, and preferences.*

- Sole full-stack developer handling requirements analysis, frontend design, backend logic (recommendation engine), database management, role-based access, and deployment.
- Technologies: Laravel (backend), MySQL, Angular (dynamic components), HTML/CSS, Vanilla JavaScript/ES6, AWS S3 (storage), cPanel, Git/GitHub.
- Achievements: Built scalable system managing 500+ student records; improved recommendation accuracy and consultant efficiency by ~45%; reduced data processing time by 50% with automated forms and dashboards; enabled secure team collaboration.

PROFESSIONAL EXPERIENCE

Avinya Productry Technologies,

01/2023 – 08/2023 | Pune

Tech Lead & Software Engineer,

- Led and managed a dynamic team of software engineers, fostering collaboration, innovation, and high-performance culture to deliver project milestones on time.
- Established effective communication channels and processes, ensuring seamless coordination, alignment with stakeholders, and reduced miscommunication in fast-paced development cycles.
- Designed and implemented the overall architecture and workflow for the Productry Dashboard, creating a scalable, modular foundation that supported core product features and future expansions.

- Defined and enforced industry best practices for code quality, security, and performance, promoting maintainability, scalability, and long-term technical debt reduction.
- Orchestrated hosting, deployment, and infrastructure management of the Productry Dashboard, landing site, and micro-services on AWS (EC2, S3, Lambda, etc.), achieving reliable, scalable, and cost-efficient cloud infrastructure with high availability.

Full-Stack Developer,

06/2021 – 11/2022 | Mumbai

WhizzAct Pvt Ltd, Mumbai, Maharashtra

- Developed and maintained full-stack web applications using Laravel for backend (APIs, authentication, business logic, MySQL database) to meet client requirements in education, finance, and custom software sectors.
- Implemented automated testing and quality assurance with Selenium for UI/functional coverage, reducing manual testing efforts by approximately 50% and improving bug detection in development cycles.
- Contributed to end-to-end delivery including frontend (HTML/CSS, JavaScript/ES6, Angular elements), deployment (cPanel/AWS), and workflow automation (n8n integration).
- Collaborated on multiple live client projects, optimizing code for performance, scalability, and security in a professional team setting.

EDUCATION

Anjuman Polytechnic, Nagpur, *Diploma in Computer Science*

06/2018 – 06/2021 | Nagpur

- Overall Percentage: 74%
- Relevant Coursework: Programming Fundamentals, Web Development, Database Management, Software Engineering (inferred from diploma focus)

CERTIFICATES

- Google Web Designer Basic – Google India
- Java Tutorial – SoloLearn
- JavaScript – SoloLearn
- Introduction to Programming Using HTML and CSS – BitDegree

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

Web Developer Lead, *Google Developer Student Club (GDSC)*

01/2023 – 12/2023 | Pune

Conducted 3-day "Web Dev Bootcamp" workshop, delivering hands-on training on modern web development (HTML, CSS, JavaScript, frameworks) to enhance student skills.

DECLARATION

I certify that the academic details, skills, and internship information mentioned in this resume are correct to the best of my knowledge and shared with honesty as part of my application.
